

6 March, 2006

Cindy,

Below please find pictures of a green sea turtle that was called to our attention by the USACE observers today. They delivered it to me at the coast guard station and I proceeded to deliver it to Gladys Porter Zoo where Jaime was so patiently waiting.

The turtle was responsive upon delivery at about 1830. It was recovered out of the dredge at around 1630.

Cheers,

Delinda S. White (DeeDee)
